

Part of the Holy Land, which is located on the east bank of the Jordan River, pertains to the territory of modern Jordan. A part of the invaluable spiritual heritage of all mankind. Here, among the legendary desert landscapes of Jordan, many of the dramatic events unfolded earthly life and of the Holy Savior - a life entirely devoted to fulfillment of them more than a spiritual mission.

That's why more and more religious pilgrims today begin their journey to the East with Jordan, then to continue in the ancient land of Canaan, in the territory of modern Palestine and Israel: moving this way, they seemed to travel through time in the footsteps of the Old and New Testaments, again going through the whole series history of relations between God and man from the first page of Genesis to the present day.
